

Entisys Solutions and Agile360 Named to the 2015 CRN Tech Elite 250

Annual list recognizes IT solution providers with deep technical expertise and premier certifications

CONCORD, Calif., May 4, 2015 – [Entisys Solutions, Inc.](#), which along with its Southern California division, [Agile360](#), is the West Coast's #1 expert in the deployment of advanced IT infrastructure solutions for the data center, all forms of end-user computing including mobile devices, and the public and private cloud, today announced that it has been named to The Channel Company's CRN® Tech Elite 250.

Annually, CRN recognizes an elite group of IT solution providers that have invested in the training and education needed to earn the most advanced technical certifications from leading vendors. And, 2015 is the fourth year in a row that Entisys Solutions and Agile360 have been named to this prestigious list.

"We are deeply honored to again be recognized among our peers in the industry who make up the CRN Tech Elite 250," said Mike Strohl, President and CEO, Entisys Solutions and Agile360. "Our success can be directly attributed to our talented and dedicated employees, whose steadfast commitment to our organization makes it possible for us to provide our clients with the best technology solutions, supported by the industry's best vendors. I would also like to thank our clients and vendor partners for their role in helping us become the industry leader we are today."

Entisys Solutions and Agile360 are recognized throughout the industry for a strong leadership position in defining datacenter, desktop and cloud strategy and architecture requirements for their clients. Together, the two companies hold several industry-leading distinctions including HP Platinum Partner, Citrix Platinum Partner, Microsoft Managed Gold Partner, VMware Premier Partner, NetApp Platinum and Virtualization Services Partner.

Jody Elkins, Vice President and Managing Director for Agile360 said, "Businesses today have many choices when it comes to selecting an IT services provider, and one of the things that separates us from the rest is our unique approach to leadership and management. At Agile360 and Entisys Solutions, we take great pride in our belief that the employee experience is just as valuable as the client experience, and everything we do is aimed at ensuring that our employees, partners and clients all receive exceptional value from our organization."

Entisys Solutions and Agile360 are members of [M7 Global Partners](#), a national network of the country's leading IT consultants dedicated to delivering datacenter and desktop solutions with an emphasis on virtual desktop solutions for mid tier and enterprise customers and government agencies. M7 members also include [AEC Group](#), [Gotham Technology Group](#), [Hogan Consulting Group](#), [Intra Systems](#), [IPM](#), [LPS Integration](#), and [Right! Systems](#).

“Entisys Solutions and Agile360 would also like to congratulate M7 Global Partners member AEC Group, Gotham Technology Group, IPM, LPS Integration and Right! Systems, which were also recognized by CRN in this year’s Triple Crown Awards,” continued Strohl.

In compiling the list, The Channel Company’s research group and CRN editors collaborated to assess the most customer-beneficial technical certifications in the IT channel. These technical certifications—from vendors including Cisco, Citrix, Dell, EMC, HP, IBM, NetApp, Microsoft, VMware and Symantec, among others—have enabled solution providers to deliver an outstanding level of premium products, services and support to their North American customers.

“The solution providers selected for our annual Tech Elite 250 have demonstrated a commitment to excellence and gained industry credibility by investing in the IT certifications necessary to deliver exceptional service to their customers and stay competitive,” said Robert Faletra, CEO, The Channel Company. “These featured solution providers have enhanced and strengthened their partnerships by earning some of the most difficult certifications from some of the most prominent names in IT. We congratulate these organizations and look forward to their continued success.”

Coverage of the Tech Elite 250 is featured in the April issue of CRN, and online at www.CRN.com.
